What we wanted...

... happy smiley Web2.0.
What we got...

Data Management and Operational Services.
HESA Return 2007 Wiki.

Links:

- Under construction.

... for about 4 months.
Eventually...

We are now trying to Wiki all of our procedures.

HESA has become just one of areas which the Wiki covers.

How did we change peoples minds? Pt 1.
I started to add a lot of pages...

... nobody wanted to be first.
How did we change peoples minds? Pt 2.

...set up templates of what pages should look like...

...people worried that the page would not be professional enough.
How did we change peoples minds? Pt 3.

...create a basic structure.

Staff did not want to feel that they had to set the agenda.
Future.

- Fully Web2.0’d Academic Registry. Each department now has a Wiki area and the overall registry has a wiki.
- Academic Registry Intranet/Internet meeting on a wiki?
- DMOS now use a Blog to record our weekly team meetings.
Any Questions.
